Every pet deserves

Welcome to Petplan

Petplan is the world's largest pet insurer with nearly 40 years of experience. In the Netherlands, we have been active since 2006 from our historical storehouse in De Rijp (North Holland). At Petplan, optimal care for your pet is our prime concern. We are the specialist in the area of pet insurances for a reason. Our expert staff members have nearly all worked in a veterinary clinic themselves and all have pets of their own. We understand your worries.

If your pet gets sick or is involved in an accident you want the best medical care. Fortunately, nearly every illness or disease can be treated nowadays. This way, our pets **live longer** and we get to experience **more enjoyment** with them. However, many operations are complex and the costs can increase substantially. A bill of hundreds or even thousands of euros is no exception these days.

Petplan reimburses the costs of the veterinarian. **This way, you will prevent financial setbacks!** A reassuring thought!

Bo

Labrador Retriever

€ 1.260,-
reimbursed

After a hike, Bo has breathing problems. Our veterinarian recommended medication and had to take X-ray pictures that very evening. Bo was hospitalised the next day in a specialists practice. It turned out to be a collapsed lung and there was an operation. Unfortunately, Bo had to be operated on for the second time the day after. Petplan handled everything and compensated us nicely..

Ralph van Kooten

Tiger

European shorthair

€ 993,-
reimbursed

Our Tiger just kept on eating and losing weight. After blood tests, we discovered that her thyroid did not function properly.

Tiger was injected with a radioactive substance to locate the cause. Fortunately, I had insured Tiger properly at Petplan and all medication is also reimbursed for this chronic disease. Tiger is now doing fine again!

Kim Scheffer

Lady

Chihuahua

€ 1.682,-
reimbursed

My Chihuahua Lady and I are both real clumsy. First I was hospitalised myself. Lady then spent time in the pension at the costs of Petplan. A month later Lady had blood in her mouth and it turned out that her coagulation was not right. After extensive treatment including transfusion she is feeling better again. Petplan helped us out well and saved us a lot of costs.
